

Sage Accpac ERP (Enterprise Resource Planning)

Sage Accpac ERP is an advanced accounting application built on a world-class, object-oriented, and multi-tiered architecture. Designed for companies of all sizes, Sage Accpac can be deployed both as a Web-based and desktop application, and is the foundation for an integrated set of end-to-end business management applications.

Sage Accpac ERP offers the freedom of choice, seamless integration, high performance, and reliability that forward-thinking companies rely on to increase profitability and gain competitive advantage.

COMPLETELY WEB-BASED

Sage Accpac has changed the rules for mid-market business management solutions by offering complete access to your accounting system through a standard Web browser. No longer limited by location, now you can access Sage Accpac anywhere, anytime through our easy-to-use, Web-based interface.

EASY TO USE AND CUSTOMISE

Sage Accpac is easy to set up and use, with intuitive wizards and a familiar interface that makes configuration and navigation a breeze. Embedded Microsoft Visual Basic for Applications (VBA) lets you easily expand, customise, and integrate your Sage Accpac application. From simple desktop personalisation to user-specific customisation, Sage Accpac adapts to the way you do business.

TOTAL INVESTMENT PROTECTION

Sage Accpac is a complete system designed to deliver significant competitive advantages to your business today—with the investment protection you need to upgrade quickly and easily from one edition to the next as your business requirements expand. Our value-added protection plan is offered across all of our product lines.

HUNDREDS OF INDUSTRY-SPECIFIC SOLUTIONS

Sage has an extensive network of more than 400 development partners who develop and market a wide range of industry-specific applications that enhance and extend Sage Accpac for specific industries and special business needs. Whatever your industry, Sage Software provides cost-effective, reliable business management applications that fit your needs.

“Sage Accpac takes a sovereign position in mid-market solutions for the breadth of its integration. Architected for the Web, the object-oriented technological infrastructure has served the company well in supporting a total back-office to front-office integration of the complete product line.”

Dr. Katherine Jones, The Aberdeen Group

SAGE ACCPAC 100

Sage Accpac 100 ERP is a completely Web-based application specifically designed for the growing company that requires a complete accounting and operations solution. Sage Accpac 100 is designed for customers with no more than five concurrent users and provides powerful accounting and operations management tools, extensive reporting capabilities, e-business readiness, and a secure growth path.

SAGE ACCPAC 200

Sage Accpac 200 ERP is a completely Web-based, affordable, and expandable business management solution designed for midsized accounting environments. Sage Accpac 200 is right for businesses that require a fully integrated, feature-rich financial management application that supports as many as ten concurrent users.

SAGE ACCPAC 500

Sage Accpac 500 ERP is a comprehensive Web-based business management solution with powerful financial and operations management, e-business, and customisation capabilities. Built on a solid, multi-tiered, open architecture, this edition supports unlimited users and offers you an easy upgrade path from other Sage Accpac editions.

Sage Accpac 500 is designed for midsized to large businesses, typically those with multiple locations and a global marketplace. With powerful analysis, reporting, and customisation options, this edition is ideal for companies requiring a highly scalable system that supports global business infrastructures and unlimited users.

Modules

System Manager (includes Sage Accpac iConnect Server, Bank Reconciliation, and Microsoft VBA), General Ledger, Accounts Receivable, Accounts Payable, Inventory Control, Order Entry, Purchase Orders, G/L Security, G/L Consolidations, Intercompany Transactions, Process Server, National Accounts Management, Transaction Analysis and Optional Field Creator, Project and Job Costing, Multicurrency, and Additional Languages.

ULTIMATE SCALABILITY

From single-user remote locations to large corporate environments with demanding accounting needs, no other product scales like Sage Accpac. With Sage Accpac, you can seamlessly upgrade from one edition to the next as your business requirements expand. When you upgrade, your data and custom reports easily move with you.

All Sage Accpac editions have an identical user interface, making it easy to adapt to the next edition without costly staff retraining or data conversion. Sage Accpac also enables data processing to be distributed across multiple servers, so as your number of users increases, multiple servers can share the processing load.

ABOUT SAGE BUSINESS SOLUTIONS

Sage Business Solutions is a subsidiary of Sage Software Australia, one of the leading suppliers of business management software and related products and services to small and medium sized businesses. Sage Business Solutions has an extensive suite of world-class ERP and CRM solutions designed to increase productivity, reduce costs and provide competitive advantage for large, medium and small businesses ranging from enterprises with over 500 employees to single office/home office operations.

Sage Software is a subsidiary of The Sage Group plc. Formed in 1981, Sage was floated on the London Stock Exchange in 1989 and the Group now has more than 5.4 million customers and employs over 10,500 people worldwide. For more information, please visit our website at www.sagebusiness.com.au
