

Sage Accpac Screen Enhancement Tool

The Accpac Screen Enhancement Tool (SET)

SET is an add-on developed by MicroChannel to allow you to customise per user the visual display of most screens within Sage Accpac.

Features List:

- ✓ Make fields mandatory
- ✓ Set default values on fields
- ✓ Update or set field data based on conditions
- ✓ Moves position of fields and/or buttons
- ✓ Rename fields and/or buttons

1. Standard OE screen with PO number field highlighted.

2. PO No. field has been renamed to "Cust Reference" and moved up to the header section. On Post of order a message displays that this is a mandatory field.
