## Our Industry Expertise

Manufacturing, Wholesale, Import Distribution,  
Not-for-Profit, Retail, Financial Services

FUJIFILM MicroChannel is a dedicated SAP Concur implementation partner specialising in Expense and Invoice (AP Automation). We like to make things simple and efficient; providing exceptional value to our customers. Our experienced consultants help organisations adopt Concur solutions to automate their Expense Management and Accounts Payable processes for a streamlined end-to-end business workflow. Our 'Concur ERP Connector' provides a seamless data connection with your ERP system, currently available for SAP Business One and Sage 300.

## Our Difference

FUJIFILM MicroChannel is dedicated to meeting your technology needs. We assist customers in every technology aspect of their business, from superior SAP Concur solutions and implementation to dependable support, and training. We are committed to being a long-term partner in your ongoing business and technology journey, empowering you through continuous innovation and business growth.
